To All My Fall Online Students:

### **CLASS WEBSITE:**

I have a feeling that some of you have not yet gone to the class website. Please go to

<http://www.economagic.com/uab/>

### **LAB:**

Tonight, Thursday 8/20/2009, from 4:30 to 6:00pm I will be in the computer lab, BEC 108. I try to sit at the first computer depending on where other people are sitting.

Please note again, that these labs are not compulsory/mandatory/necessary; they are not classes; they are a time for you to ask me questions. This is instead of posted office hours. Students can come and go, and ask me questions about the course. Some students come and study nearby and ask me questions as they arise. This is an easier environment to do this instead of my office. If you cannot make it to a lab but have a question, you can also email me and/or set up an appointment.

Gmail - QM214; QM215; Applied F...

I will hold these labs once a week, usually on Thursdays, but sometimes on Wednesdays – depending on my schedule.

Thanks,

Ted Bos
